Rachel, Dan –

I've been in meetings most of the day on aldicarb, but I wanted to quickly mention that I have not yet created a draft document for circulation. My intent, prior to annual leave in December, was to delegate this responsibility to one of our newer folks to begin working on this. Catherine (and others) thought that it would be helpful to get some new perspectives from the newer employees (e.g., I'm thinking Briana for IVB2). That said, I'll share with you the PRD one-pager that we were somewhat looking to mimic, even though I think that it doesn't quite fit our RD culture very well. However, I'm in yet another aldicarb session at the moment, so I'll try to get the one-pager to you before day's end. Many thanks!

Marion J.

Of course, I am interested. If Marion has a draft one pager, we could work together to get one out quickly.

RD hires weed scientists. Looping in Dan, Rachel, and Marion – he was working on a recruitment one-pager for RD.

Best,
Catherine

All – BEAD will be presenting a short 5-10 minute overview about careers in OPP for weed scientists on Jan 27. Could you please let me know if your division hires or will be hiring weed scientists or agronomists? I think I know the answer but I getting your feedback would be helpful. Also, if you have one page summaries about your division feel free to send those to me and we can share those. Bill Chism will likely be presenting at the webinar, so getting your feedback by the end of this week (Jan 7) would be helpful so we have time to clear our slides and other materials. Thank you. - Monisha
